MARTIAL LAW MAY BE MADE GENERAL.

SOLDIERS TO RULE WHEREVER STRIKES GATHER.

General Miles is Asked What the Chances Are of Such Action Being Taken and Gives an Evasive Answer—Most of the Passenger Trains Running Today.

CHICAGO, July 10.—Martial law in all parts of the country affected by the strike is the possibility. It would not be martial law in the full sense of the word, but the same system that has been in force in Chicago for the last three days. General Miles when asked to-day regarding the report that President Cleveland intended to declare martial law throughout the United States said: "Perhaps." The tone in which he said this was taken to indicate that such action was probable.

Judge Grosscup is expected this afternoon to charge the grand jury to arrest all who are directing the movements of the mob.

The general managers today report that most of the passenger trains are running and that eight trains have been dispatched. A dispatch from Cleveland announces that deep rate efforts have been made today to run trains, but the strikers have held the upper hand. Mayor Hopkins has called on Gov. Altgeld for more troops. In a dispatch sent to Springfield at 12:30 o'clock yesterday the mayor requested the governor to send to Chicago at once another regiment of militia. This was decided on at a conference between Mayor Hopkins, Corporation Counsel Rubens, Colonel H. F. Donovan and several officers of the state troops now in service here. The additional troops are called for to take the place of the seven companies of militia placed by Mayor Hopkins under the orders of Sheriff Gilbert to protect life and property at points in Cook county outside the city limits.

"We have had no trouble, but I want to be on the safe side and to be prepared for any emergency," said Mayor Hopkins. "I think we ought to have at least five regiments of militia in Chicago, and as it was necessary to detail some of the troops to outside towns I determined to ask the governor for more men. All is quiet so far as we have heard. There has been no rioting and the railroads are sending out trains wherever they have new men enough to operate them."

Being asked what he thought of President Cleveland's proclamation the mayor replied: "I think it will have a good effect. It warns people to keep away from the railroad tracks and other places where trouble might occur. There will be no special change in the disposition of the troops. They will go where ever needed as the occasion of the hour may demand."

Probably 2,000 men were added to the force of troops now on duty in the city. From the regular army came detachments from Sackett's Harbor, Buffalo, Fort Niagara and Fort Riley. Governor Altgeld will no doubt accede to Mayor Hopkins' request for another regiment of state troops.

Both parties to the controversy are watching Cheyenne, Wyo., where the American Federation of Labor is in convention assembled. It is known that efforts are being made to have the federation declare in favor of the Debs strike. Should this be done the situation would be complicated in the extreme, as the federation, with its almost seven hundred thousand members, can play an important part in labor troubles. With the American Railway Union, the Knights of Labor, the Federated Trades and the American Federation of Labor acting together, the strike would be the greatest known in the history of the world. It is stated quite positively that the American Federation of Labor would endorse the strike, and it was affirmed with equal confidence that the federation would not ally itself with Debs.

STRIKE BROKEN AT JOLIET.

Employees of All Roads Except the Rock Island Return to Work.

JOLIET, Ill., July 10.—The backbone of the strike in Joliet seems to be broken. All the Alton men went to work yesterday—switchmen, firemen, engineers, brakemen, shopmen and all hands—and trains are running, both freight and passenger. The same is true of the Elgin, Joliet & Eastern, Michigan Central and Santa Fe. The Rock Island is the only road that is blocked and this is on account of the troubles at Peru, Spring Valley, Seatonville, Ladd and Blue Island. The Calumet & Blue Island men would go to work if the Illinois Steel company, which owns the road, would start up.

Loud denunciations of the men who have gone to work are heard on all sides, especially men who have been sympathizers.

JACKSONVILLE, Ill., July 10.—The Chicago and Alton ran several trains through here this morning. The Wash passenger service is getting under way, but the freight traffic on both roads is at a standstill.

ANDERSON, Ind., July 10.—The trains on the Michigan division of the Big Four are running on schedule time with the old crews, who struck a few days ago. The men regarded as un-

fair the order for them to strike while the other divisions of the Big Four were allowed to remain open and in operation. The trouble here is apparently at an end.

LAW-MAKERS INTERESTED.

Senators and Representatives Eager to Hear Strike Bulletins.

WASHINGTON, July 10.—Senators and members of the house have evinced the greatest possible degree of interest in the news of the strike. The press bulletins giving in a concise form the latest events, have been eagerly read by all. While the senate was not in session, the bulletins were read in the various committee rooms. The most important argument or discussion would be broken off while some senator would read each press dispatch as it arrived. In the house the interest has been even greater, and each bulletin would be discussed by groups of members about the hall, in preference to listening to what was being done in the regular proceedings.

SAYS OUTLOOK IS BRIGHT.

Debs Telegraphs Regarding Transportation of Endorsement Delegates.

CLEVELAND, Ohio, July 10.—An important telegram in connection with the promise made on Saturday by the local committee of the American railway Union that it would do all in its power to expedite Christian Endeavor trains was received from President Debs last night by the latter's representative in this city. The telegram is as follows:

"Chicago, July 10.—Thomas Higgins, Cleveland: Your telegram received. This is an authority for you to use your best judgment regarding Christian Endeavor transportation. The situation here is brighter than ever to-night. E. V. DEBS."

THREATEN A GENERAL TIE-UP.

All Organized Labor at Cleveland Will Quit If New Men Are Put to Work.

CLEVELAND, Ohio, July 10.—The executive committee of the American Railway Union to-day announced that should the railroad companies attempt to put the men now being brought here from the east in strikers' places all organized labor, not only on the railroads, but covering every branch of industry in this city, would strike. The committee further stated that the engineers, firemen, conductors and every class of organized railroad labor have declared that under no circumstances will they work with non-union men.

PUTS ON THE SCREWS.

A. R. U. Has the Railroads at Toledo Tied Up Tight.

TOLEDO, Ohio, July 10.—While every road running into and through the city is not completely hung up the indications are such a condition is close at hand. The Wheeling & Lake Erie switchmen and trainmen are out and not a wheel is turning. At 6 o'clock yesterday all the switchmen of the Lake Shore went out. The strike of Lake Shore men at Air Line Junction includes 400 men. Iowa Central yardmen went out at Thurston and Corning yesterday. The 500 American Railway Union men at Bucyrus went out and everything is shut down at that point. The Toledo, Ann Arbor & North Michigan switchmen, trainmen, operators, section men, and all other employees went out yesterday in Toledo, Owosso, Cadillac and Frankfort.

President Gompers to Take a Hand.

NEW YORK, July 10.—President Gompers of the American Federation of Labor has reconsidered his decision not to go to Chicago and has called a meeting of the executive council there Thursday. The council are Samuel Gompers of New York, P. J. McGuire of Philadelphia, P. L. Drummond of Fort Wayne, James Brettell of Mingo Junction, Ohio, W. H. Marden of Boston, and John B. Lennon and Chris Evans of New York. This action of Mr. Gompers, it is believed, will have a most important bearing on the strike, particularly in the east. The Federation of Labor, if it decides to give the strike its support, will materially change the condition of affairs.

Situation at Wabash.

WABASH, Ind., July 10.—It can be stated with entire confidence that the railroad strike on the Michigan division of the Big Four is practically ended. At the meeting yesterday of the Wabash division Brotherhood of Locomotive Engineers it was unanimously decided to stand by the company and go out with any firemen put on the engines. The strikers were somewhat discouraged by this, but last night at the American Railway Union meeting, including the brotherhood firemen, voted to continue the strike.

Passenger Trains Run Freely.

PEORIA, Ill., July 10.—The strikers are quiet and orderly and no trouble of any kind occurred yesterday. All passenger trains were allowed to arrive and depart on time, but except upon the Chicago, Burlington & Quincy and the Rock Island, there was no effort to move freight. These roads have encountered no opposition so far and have switching crews at work. Three boats will be put on between here and Pekin to-day by the railroads for the roads running from Pekin.

Yardmen at Dallas Quit Work.

DALLAS, Texas, July 10.—The yardmen of the Santa Fe system at this point struck at 11 o'clock yesterday.

STRIKE IS CERTAIN THE BOSSES SAY.

PULLMAN AGAIN REFUSES TO TRY ARBITRATION.

Tomorrow Morning the Labor Leaders Claim that 250,000 Men Will Quit Work in the Largest Sympathy Strike Ever Known—Coal Miners To Join.

CHICAGO, July 10.—Today has been one of intense anxiety. The Pullman company again absolutely refused to arbitrate. The proposition was made to them just before noon. All the representatives of organized labor in the city are ready to quit tomorrow. Neither side is receding. The refusal of the Pullman company to enter into negotiations looking toward an amicable adjustment of the alleged difficulty between it and its employees will result in the cessation of labor to-morrow morning of 250,000 Chicago wageworkers who are in sympathy with the Pullman strikers and also in sympathy with the American Railway Union.

This will be the greatest labor strike on record in this or any other country, and in consequence is viewed with the most grave alarm by every citizen, no matter on which side of the present issue his sympathies are arrayed. What adds to the gravity of the situation is the evidence that organized labor in every part of the United States will in all probability follow the example of the Chicago trades unions and stop work. The convention of the American Federation of Labor now in session at Cheyenne, Wyo., representing 700,000 members will, it is claimed, order a general strike throughout the country, completely paralyzing the commercial and industrial system of the nation.

The federal administration at Washington as well as the local authorities is deeply concerned in the approaching general strike. Messages flew thick and fast yesterday afternoon between Gen. Miles' headquarters and Washington when it became known that the strike was inevitable. Information concerning the strength of the labor element in Chicago was furnished to Gen. Miles and by him transmitted to Washington.

COAL MINERS ARE CALLED OUT

Fuel Supply of the Boycotted Roads to be Shut off.

CHICAGO, July 10.—Forty-five thousand miners engaged in furnishing coal for the boycotted railroads will quit work to-day if they obey the order issued shortly before midnight last night by John McBride, president of the National Miners' association.

If this movement be ineffectual 10,000 additional men will be ordered to lay down their picks. As other roads become involved, McBride declares he will enlarge the force of strikers and he will not, though all other coercive means fail, permit one of his men to mine a bushel of coal for any railroad one of whose employees is known as a "scab." Any dealer, any mine owner, or contractor who sells or bargains to sell coal to such roads will be boycotted.

The recent agreements made between the mine owners and the miners will not be respected by McBride. He declares they must be revised so far as relates to furnishing coal to the boycotted railroads. The railroads having mines of their own will have to operate their mines with miners other than those belonging to the Miners' association or close them up. "The effect of a call out of miners will be felt more in the commercial centers than by the railroads," said General Manager D. B. Robinson of the Santa Fe. "Our road has a good supply and can get along for a while, but Chicago will have to bear the full force of such a move. Of the 3,000 coal miners employed by the Santa Fe one-third are still out down in New Mexico at Cerillos and Blossburg. This is a serious matter for Chicago and means another 100,000 men out of employment."

"This may add a great deal to the existing troubled situation," said General Manager St. John of the Rock Island when informed of the new deal. "The Rock Island operates no mines and depends on several other companies for supply. The road is well supplied at present, but of course could not hold out forever."

"A general strike of coal miners now would paralyze everything in Chicago in two weeks," said C. A. Weaver, "and it puts a most serious phase on the situation. Everything would have to shut down and business would come to a standstill. The soft coal miners are practically shut down now, and there is no supply in Chicago. There is lots of hard coal, but at the demand of to-day it is going at the rate of 10 per cent a day. In two weeks at the outside the supply would be exhausted and everything would stop."

Will Not Arbitrate.

CHICAGO, July 10.—A final attempt was made yesterday by the committee representing the trades and labor organizations, acting in conjunction with Mayor Hopkins and a special committee of the city council, to have the differences between the Pullman company and its employees submitted to arbitration. It was not successful.

BURNED BRIDGES AND STONED MEN.

STRIKERS CONFINE THEMSELVES TO LESSER CRIMES

Outbreaks Today Were of a Less Serious Nature and it Was Not Necessary to Shoot—Stray Bullets Caused the Death of the Two Danville Women.

CHICAGO, July 10.—Acts of lawlessness have not been so numerous to-day, and there have been no fatal conflicts. Seven hundred feet of the Monon bridge and trestle work over the Calumet river was burned this morning, stopping traffic three miles south of the city.

Thirty-eight cars of meat were moved at the stock yards under a military guard. The mob stoned the trainmen who were promptly rescued by the militia, they driving the rioters off.

More regulars arrived from the west to-day, as well as a body of United States cavalry from New York.

QUIET AT SPOONER, WIS.

According to the Town Officers There Is No Need for Troops.

SPOONER, Wis., July 10.—The strikers are quiet and orderly. Two freights were moved yesterday, the only ones since June 29. No passenger trains were moved on this division since Saturday. The lack of trainmen seems to be the only trouble the company finds in doing business.

EAU CLAIRE, Wis., July 10.—No trains moved in either direction on the northern division of the Omaha yesterday, as it is said there is no use trying to get them past Spooner. The striking firemen at Altoona have gone back to work.

Hudson, Wis., July 10.—For the last few days matters at Spooner, on the northern division of the Omaha, have been in bad shape. Boycotts were declared against all union men and engineers and firemen were pulled from their trains. Carloads of dressed beef and other perishable freight have been destroyed because the inhabitants at Shell Lake, Spooner and other localities have to consult the American Railway Union committees which have refused aid to the road. It is reported that the troops will be ordered to Spooner at once without waiting the call of the sheriff.

ILL FEELING AT HAMMOND.

Much Bitterness Expressed on Account of the Shooting.

HAMMOND, Ind., July 10.—Warrants charging the soldiers with murder during Saturday's affray have been issued, and there is a movement on foot to swear out similar papers charging the head of the United States government and his chief executive assistant with being accessories before the fact to the "murder" of Fleischer.

The inquest over the remains of Fleischer was held in the city hall yesterday by Coroner Anton Seidler. The verdict is a fair sample of the feeling of the people over the shooting. Here it is: "Charles Fleischer's death was caused by accident, occasioned by soldiers of Company D, Fifteenth infantry regiment, shooting wantonly and carelessly into a crowd of peaceable citizens."

At a public meeting resolutions were passed strongly denouncing the action of the troops. But for the presence of the state militia there would certainly be an attempt to avenge Fleischer's death. The federal troops have left the town.

RIFLES TO KING OUT.

President Cleveland Warns Rioters in the Far West.

WASHINGTON, July 10.—After the President returned from his drive last evening he found Secretary Gresham and the attorney-general and Postmaster-General Bissell and Gen. Schofield awaiting him in the cabinet room. Their information was of such a nature that within an hour after the President reached the White House another proclamation was drafted. This related to the troubles in North Dakota, Idaho, Utah Territory and other points along the line of the Central and Southern Pacific railways.

In his latest proclamation the President of the United States directs all people to cease interfering with United States mail trains or inter-state commerce traffic by 4 o'clock to-day. The proclamation is substantially like the one issued Sunday night in relation to Chicago.

TROOPS KILLED TWO WOMEN

Stray Bullets Caused the Needless Fatalities in Danville, Ill.

DANVILLE, Ill., July 10.—The first blood resulting from the railroad strike at this point was shed yesterday. A Chicago & Eastern Illinois passenger and mail train's course through Grape Creek, a mining town seven miles southeast, was blocked by coal cars thrown across the track and by removed rails. The militia was sent down to the aid of the mail train in a special, and while escorting the train to this city was fired upon. The shots were returned, and three persons were killed by stray bullets.

The dead are:

GLENNON, MRS. M., shot in the abdomen; died at 4:15 p. m.

JAMES, CLARA, aged 16, shot through left arm and side, instantly killed.

UNKNOWN MAN, Belgian miner.

Many of the attacking party were injured and three were taken prison-

ers and lodged in jail. Those killed were non-combatants. The reports are that threats of great destruction are being made by the miners and that a body is to move to the city at once.

At 5 o'clock last evening a non-union brakeman was shot in the neck at the junction. He gave the name of H. N. Stanly, New York. His condition is serious. Last night the militia was increased by one company of the home battery and the remainder was sent to Chicago. Sheriff Newton has received word that another battery with galling guns is coming.

IN A REIGN OF TERROR.

Central Illinois Towns at the Mercy of Allen Miners.

PRINCETON, Ill., July 10.—Two grocery stores were partly looted yesterday at Ladd by a mob of 300 miners. The men gathered about the stores at noon, and the leaders told the proprietors if the goods were not handed over peacefully the establishments would be looted at night and the fixtures broken up and the buildings destroyed. The proprietors under protest gave the men what they wanted. For several hours goods were carried off and the stores then locked up. They will remain closed until the trouble is over.

The citizens of Ladd, a town of 2,000, have been panic-stricken all day. Nearly all the women and children have left town, and the English-speaking men moved their more valuable household effects to farm houses in the vicinity. Thirty deputy sheriffs from Princeton have arrived. They are armed with shotguns and rifles and will be given a position near the mining shafts. It is expected an additional force of deputies from the western side of Bureau county will arrive here soon.

The miners held secret meetings in the woods near town yesterday and it is impossible to learn what they have decided to do. Reports from scouts surrounding Spring Valley are to the effect that the anarchistic elements of the strikers from La Salle, Peru, Ladd, Laceyville and Oglesby are to go to Spring Valley for the purpose of driving the entire English-speaking population from the city and sacking the public buildings and mining property. The total force of the men will number in excess of 4,000, while the force to resist them consists of 118 militiamen and 125 deputy sheriffs.

There is a universal fear throughout Bureau county that the anarchistic element of the strikers will quietly slip out of Spring Valley unknown to the authorities, as was the case at Ladd, and sack Princeton and other towns. At Princeton three companies have been organized as a town guard, in addition to those who have already gone with the sheriff to Spring Valley. It is feared the mob of rioters will follow the prisoners to this city when the arrests are made and endeavor to liberate them. The rioters have cut the telephone and telegraph lines to such an extent that it is difficult to get news throughout the country from the mining towns. Between Spring Valley and Ladd and Laceyville not only the wires have been cut but the poles either pulled out or cut down.

COAL MINERS BLOCK THE ROAD

Mob Overturns Cars on the Chicago & Eastern Illinois.

TERRE HAUTE, Ind., July 10.—The Chicago & Eastern Illinois had about resumed operations yesterday when a new obstruction was erected by coal miners at Norton Creek in Vermilion county, seventeen miles north of here. About 150 miners overturned two coal cars and threatened to kill any one who undertook to remove the obstruction. The sheriff of the county and United States Marshal Hawkins have been called upon for assistance. Deputy United States marshals will also be sent to Brazil to protect the company's men in resuming operations on the coal road division of the Chicago & Eastern Illinois.

INDIANAPOLIS, Ind., July 10.—A carload of deputy marshals left here last night for Clinton, where the Polish miners turned coal cars over on the Chicago & Eastern Illinois tracks and blocked all traffic.

Attempt to Blow Up a Train.

TACOMA, Wash., July 10.—Deputy marshals found a dynamite bomb fastened to the rail on the stone bridge at Fifteenth street. The bomb consisted of a piece of gas pipe filled with dynamite and the ends filled with waste. The evident intention was to have the bomb explode by the passage of a train.

Firemen to Strike at Cincinnati.

CINCINNATI, Ohio, July 10.—The Big Four firemen have decided to strike. It is supposed to be a sympathetic strike, though there has been talk of a demand for the restoration of the scale of last year.

Mob Burns a Bridge.

CHICAGO, July 10.—Wabash trains were delayed in reaching the city this morning and finally came in on the Fort Wayne tracks. The detour was necessary because a bridge at Clark station had been burned out during the night.

Soldiers Sent to Tacoma, Wash.

TACOMA, Wash., July 10.—Company F, Fourteenth Infantry, United States army, Capt. Murphy, left Port Townsend last night for Tacoma, to do military duty on the Northern Pacific railway.

DEPOT IS A FORT FOR 1400 STRIKERS.

BLOODY BATTLE AT SACRAMENTO INEVITABLE.

General Ruger Dispatches Regulars From San Francisco to Dislodge the Mob and Every Preparation is Made For Determined Resistance—Marine Island Marines Join Troops.

SACRAMENTO, July 10.—The situation is extremely critical. Fourteen hundred strikers are arming to hold the depot against the regulars, who are now preparing to leave San Francisco to dislodge them. A bloody conflict is certain.

SAN FRANCISCO, Cal., July 10.—Gen. Ruger summoned back from Santa Cruz Col. Youngs and troops J and K of the Fourth United States cavalry. They have been on a four months' campaign in the interior of the state and were hastily recalled, arriving at the Presidio to-day. They number 200 men. Hotchkiss and galling guns are all in order ready for transportation.

Marines Held in Readiness.

VALLEJO, Cal., July 10.—Capt. H. L. Howison, commanding the Mare island navy yard, is in receipt of orders from the secretary of navy to hold the marines in readiness for immediate service. Two hundred men are now held in readiness at the post and orders to move at any moment are anticipated.

WASHINGTON, July 10.—At the request of the secretary of war the entire naval force at the Mare island navy yard has been ordered to co-operate with the garrison at the Presidio in maintaining and executing the law.

Fatality at Salida, Colo.

SALIDA, Colo., July 10.—One of the watchmen in the roundhouse threw coal oil into the fire-box of an engine in which a fire was burning. A sheet of flame flashed out of the furnace. Ex-City Marshal Stevens, in trying to extinguish the flames, inhaled some of the gas. He complained of feeling sick and walked to a drug store and asked for a glass of brandy, but before it could be brought he died.

Strike Is on at Louisville.

LOUISVILLE, Ky., July 10.—Seventy-five firemen, switchmen, and brakemen on the Louisville and Nashville railroad have gone out here, and it is thought the strike will extend as far south as New Orleans and over the entire system. The passenger trains are going out, but not on time and with non-union firemen. The engineers have made complaint about working with non-union men, and it is probable they also will go out. The men have quit at Nashville and Bowling Green.

Santa Fe and Gulf Running Trains.

TRINIDAD, Colo., July 10.—The Santa Fe and Gulf railroads are making steady progress and before many days will be running all trains, freight and passenger, as usual.

RATON, N. M., July 10.—Seventy-five engineers, firemen and trainmen arrived from the east yesterday to take situations on the Santa Fe.

DEMING, N. M., July 10.—About 500 United States troops from Fort Bayard left here last night on a special train for Raton to assist in moving three mail trains on the Santa Fe.

Miners to Strike Again Sept. 16.

PANA, Ill., July 10.—Yesterday a local labor leader confirmed the report that the United Mine Workers had set Sept. 16 as the date for a renewal of the miners' strike. He added that a great many miners had been taken into the Knights of Labor since the recent strike, and that if Mr. Sovereign called out all Knights of Labor in sympathy with the Railway Union his order would practically cause another general strike of miners before the date set for it.

Strikers Unhitch the Pullmans.

NEW ALBANY, Ind., July 10.—The Louisville, Evansville & St. Louis (Air Line) passenger train, bound for St. Louis yesterday, was attacked by the strikers at Hoffman's switch, one mile outside of the city. The Pullman cars were unhitched and after hitching the mail car to the engine the train was ordered to proceed, leaving the Pullman cars behind, which was done.

Strikers Get Mail at Milwaukee.

MILWAUKEE, Wis., July 10.—Preliminary hearings were given yesterday to C. S. McAuliffe, John O'Rourke, John Poulter and Charles Van Ellis, the men arrested here are charged with a violation of the interstate commerce act. An adjournment was taken until Friday and the men admitted to bail.

Clover Leaf Men Walk Out.

ST. LOUIS, July 10.—The conductors and brakemen of the Toledo, St. Louis & Kansas City railway last night notified the general officials that they had decided to strike in sympathy with the Pullman boycott. Consequently no trains have been sent east from here on that road.

All Trade Union Men May Go Out.

INDIANAPOLIS, Ind., July 10.—An all night session of the Central Labor Union was held last night and a vote taken on the question of calling out all trade union men in Indianapolis. The feeling here is in sympathy with the strike, but a large element among the men is opposed to a strike and the men may not go out.

JANESVILLE STRIKE IS NOT PROBABLE.

LABOR UNIONS NOT DISPOSED TO GO OUT.

Everything Quiet Around the Railroad Depots—The Men Here Have Little Sympathy For the Strikers—Freights Moving on the C. M. & St. P. With Little Interruption.

Janesville labor unions will not join in the strike, even though it spreads into Wisconsin and affects Milwaukee. This was the declaration of several leading members to-day. The men here are in thorough sympathy with the Pullman strikers, but do not see how a strike in Janesville would help them.

All was quiet around the local railway depot to-day, and employees of the two railway companies waited patiently and anxiously for a general resumption of business. All were outspoken in insisting that railway men have no grievances. Notwithstanding the quiet that reigns in the yards and around the depots, the Northwestern company sent out a number of heavy freight trains last night, both north and south, but no freight of a perishable nature is being received. The St. Paul is also running a few freight trains, and handling freight of a non-perishable nature. All passenger trains are running on regular time. Reports from Chicago in this morning's Sentinel are as follows:

Married Men Get a Lay Off.

Today showed a marked increase of business at the Northwestern depots and railroad officials were pleased with the outlook. It was a general remark by them that traffic seemed so much improved, that there were scarcely any visible signs of the strike to be noticed, and as far as the running of trains is concerned the officials said there were plenty of men to run them, the only trouble being to keep the mobs off. In one or two instances several of the employees who were married had been openly threatened and intimidated. These men have been excused from duty for a few days, but are expected to report for duty again as soon as their fears subside. Trains going out have been heavily armed either with deputy marshals or soldiers and will probably be well protected until the spirit of hostility subsides. The Chicago, Milwaukee & St. Paul, and Wisconsin Central are pleased with the outlook for running regular trains without interruption, and seem to believe that business in a few days, so far as they are concerned, will assume its usual proportions.

Pullman Won't Leave Chicago.

The announcement that the Pullman shops would be removed from Illinois to New Jersey, was made in last evening's Chicago Journal. The reason given was that New Jersey laws protected factories from mob violence. All of today's Chicago papers deny the story absolutely. An Inter-Ocean representative visited Thousand Islands, where Mr. Pullman is staying. He says: "Late this afternoon I sent a query over to Mr. Pullman asking him if there was any truth in the Chicago rumor that the Pullman Company contemplated moving their works to New Jersey. In answer to this Mr. West, Mr. Pullman's son-in-law, called to see me at the Thousand Islands House here this evening. 'You may state authoritatively,' said Mr. West to me, 'that there is no truth in this rumor whatever.' 'I then said: 'You will allow me, then to state this as Mr. Pullman's own answer, will you?' To this he replied 'Yes,' and left."

Must Report For Work To-Day.

Any Chicago, Milwaukee & St. Paul employees who are not at work to-day, won't get a chance to work for a long time. A bulletin received in this city says: "All employees who do not report at or before 7 o'clock Tuesday morning, are out of the company's service." The road now receives all freight except perishable and live stock. The Mineral Point way freight which has been abandoned for six days, is running again to-day, and most of the other freights are running as usual.

WORDS OF THE WISE.

Education should lead out, not force on.

The troubles that kill us are the ones we borrow.

People who carry sunshine with them are always welcome.

Whenever you speak evil of another you are sure to hurt yourself.

Love is the only thing that can lighten burdens by adding to them.

As small letters weary the eye most, so also the smallest affairs disturb us most.

The fact that a man wants more knowledge is proof that he has some already.

Unless you want to lose everything else, don't let envy get a foothold in your heart.

If one wants to get in a crooked path just follow the directions of a cork screw.

Reformation without religion is locking the door and leaving the key on the outside.

He that worries himself with the dread of possible contingencies will never be at rest.

Some people might find time for helping one another if they were not so busy helping themselves.

Every sin has a dagger in its hand, with which sooner or later it may strike, no matter how harmless it may look.

Assumed qualities may catch the affections of some; but one must possess qualities really good to fix the heart.

Strength of character lies not in demanding special circumstances, but in mastering and using any that may be given.

Borrowing trouble is a wretched business, for if a man will only wait he will have troubles of his own to give away.

WOMAN'S WIT.

A young woman hunting for some eggs remarked that they must have been mislaid.

A lady said to Charles Sumner that he should never have married, as his self-conceit was so intense as to make it bigamy.

Lady Blessington remarked that friends are the thermometer by which we may judge of the temperature of our fortunes.

A man rose to go out of a car, and said to a young woman, "Take my seat." Her reply was, "No, thank you; I get out here too."

Ryan and Strang Not Candidates.

EDITOR GAZETTE: There appeared in your paper of last week in the Footville jottings, an item stating that Dennis Ryan and Sol Strang got badly beaten at the school meeting, and that the old board were retained. The facts are that neither Dennis Ryan or Sol Strang were candidates at the school meeting. Milt Owen, a good, honorable man was a candidate and was beaten by a lot of hoodlums and a few good citizens. DENNIS RYAN.

SOLDIERS READY TO FACE THE MOB.

JANESVILLE BOYS TURN OUT VERY PROMPTLY.

They Expected to be Ordered to Spooner and Many Old Members Wanted to Enlist But the Call Proved Bogus—Crowd at the Armory.

Soldiers in slouch hats, leggings and fatigue uniforms hurried about town last night. Twelve taps had sounded on the big bell, then twelve more and still another twelve. That meant war, and inside of twenty minutes most of Company A were in the Armory. The entrance to the Armory was surrounded by anxious parents, fond sweethearts and eager spectators. One heartless young man remarked in a funeral tone of voice:

"It's a pity to see a fine-looking lot of men like that going to be shot down by a desperate lot of strikers isn't it?" And then he smiled like a Mephistopheles as every one of the fond maidens within hearing burst out into a simultaneous "boo-hoo."

It Made Him Sad.

Nobody who remembered the faithful service Janesville boys rendered in the Milwaukee riots had any doubt that Company A would fight and fight hard if necessary. Still the crowd couldn't resist the chance to "josh" the soldier boys. One of the spectators looked at a Light Infantry man and shaking his head sadly said:

"It's too bad."

"What's too bad," asked the "bowld sojer boy." "I don't think there's much danger of getting shot."

"Oh, that ain't what I'm talking about. I was simply thinking that it is a darn shame to have a nice suit of clothes like that filled with holes in the back."

Alarm Was Merely a Test.

As a matter of fact the call was merely a test. Captain Glass had orders to put his men in shape to march on a moments notice and took that means to try them. Knapsacks were packed, camp accoutrements examined and all the arrangements made so fifty men could be put on board the cars at fifteen minutes' notice. Several of the old members were anxious to enlist when they saw the signs of war and read this dispatch:

MILWAUKEE, WIS., JULY 9. CAPT. CHAS. F. GLASS, COMMANDING "CO. A," 1ST INFANTRY, W. N. G.—Sir:—Assemble your company. Fit out for service. Hold them at armory subject to orders.

OTTO H. FALK, Adj. General.

When they learned the dispatch was bogus, however, they changed their mind.

Monona Lake Assembly.

For the Monona Lake Assembly to be held in Madison July 24 to August 3, the Chicago, Milwaukee & St. Paul railway will sell round trip excursion tickets July 23 to August 3 at a fare and a third, good for return until August 4.

It will astonish you how quick Johnson's Magic Oil will kill a pain. Sold at Smith's pharmacy; 25 and 50 cents.

THE DIAMOND.

Danny Richardson thinks Cleveland will win the pennant.

Gus Shallick, who was on the Reds' pitching corps back in '84 and '85, has an idea that his arm is all right again. He will be given a trial by Capt. Comiskey.

Many other players than the captain are altogether too free with the use of their tongues toward umpires, and should be called down—Sporting Life.

Tim Murnane thinks that two games a week is all that any man can pitch and do effective work.

No team can win the pennant unless it has the nerve to play winning ball away from home.—Ex.

Nichols is doing wonderful pitching for Boston.

Strange to say, the New Yorks invariably play in a very indolent manner on Mondays.

Brown, Baltimore's left-handed twirler, has been laid off.

The Pittsburg players say they were treated shamefully in the east and gave that as a reason for losing so many games.

Goodwin & Swift of New York have made an assignment. The senior member of the firm is Wendell Goodwin, who was the principal stockholder in the Brooklyn Players' League club, and is at present a heavy stockholder in and director of the Brooklyn League club.

THE DENTISTRY OF TO-DAY.

Great Changes Since Washington Had Teeth Carved From a Block of Ivory.

When we think reverently and admiringly of the father of our country, and of all the dangers he dared and the evils he encountered, we are not apt to remember one of the hardest trials of his life; and that must have been the accommodation of his mouth to a set of teeth manufactured 3,000 miles away from that mouth, and carved, it is said, from a whole block of ivory.

When he had contrived to accommodate himself to the momentous affair it must have been a singular revelation that his smile made, and Lady Washington may have found something trying in the face opposite her of the greatest and grandest of men. What a marvel in comparison is the dentistry of to-day, that knows how to preserve the teeth indefinitely while that is best, and so to preserve the shape of the face and the original beauty of the lips, and upon necessity can absolutely remove the bone, and put in its place the prepared rubber to which the plate shall be riveted and clamped, till a fair face is made out of a ruin. And what a difference in the teeth made to-day to supply deficiencies, so light, so useful, fitting so smoothly in the plate that one almost longs to see nature replaced and improved upon universally.

Yet in spite of the beautiful delicacy and regularity of the modern artificial tooth in general, a much better effect is obtained when the teeth are not so perfect, and each so exactly like its typical prototype. A little gold filling here, a very slight shortening there, a tiny gap, a hint of overlapping, an atom or two of unevenness at the end, all help more in vraisemblance than matched and precise perfectness does. This, however, is more useful than for the vraisemblance in giving individuality to the mouth. All and each of those little peculiarities seem to express some idiosyncrasy of the person possessing them; they are like arresting and retaining points to the memory of the imagination.

And provided they be not too obtrusive, and the teeth are sufficiently wholesome looking otherwise, they do not at all interfere with the charm of "sugared lips parted with sugar breath." It is with difficulty indeed that any healthy teeth, unless they are set in ugly and projecting gums, can do aught but add to the luster and life of the countenance. A man whose beard largely hides his teeth can even meet this difficulty, and is never at the disadvantage, so far as teeth are spoken of, that a woman is when these teeth are not all they should be.

But great as the marvels of dentistry are, and life-like and comfortable as artificial teeth can now be made, unless one is willing to undergo operations that shall make some foreign substance act the part of the

roots of the teeth in filling 'out and holding up the cheek, and so maintaining the agreeable look of youth, one had best do all that is possible to preserve the original teeth and forego any great knowledge of the dentist's powers.

HARPER'S HISTORY OF THE WAR

Harper's Pictorial History is universally recognized as the best history of the war yet published. This superb work has never been sold for less than \$16 to \$30. It has been sold only by subscription and but a very few men have been able to buy it.

The pages are the same size as Harper's Weekly and the work contains all the illustrations appearing in that great paper during the war. The work was edited by Richard Grant White and Henry M. Alden and is authentic, complete and reliable.

We have made arrangements whereby we can furnish Gazette subscribers with this splendid history of twenty-six parts at ten cents a part. These twenty-six parts will contain over one thousand war pictures and will make two handsome volumes when bound.

Many official documents of priceless historic value are quoted in full in the copious foot notes, such for instance as Lincoln's inauguration speeches, articles of federation of the early states, constitution of the United States, ordinance of secession, and many important papers, speeches, etc. The war story is consecutive and very fascinating. The introductory chapters, leading up to the struggle, and the chapter on the reconstruction period, are by some of the first writers of the age.

DEBS AND THE PRESS.

The papers of the country can afford to laugh at Debs' threats of a boycott against them. The sort of men who are ignorant and cowardly enough to obey his orders in this respect don't, as a class, read newspapers. Boycotts under such conditions would help and not hurt the press.

Throughout the whole of this disturbance the press has rendered a valuable service to the community, and especially to the cause of organized labor. It has shown the members of labor classes the monstrous injustice and cruelty of the strike, the folly of attempting to coerce Pullman in this way, and the harm which would be inflicted upon the country if the labor leaders should persist in carrying on their plots. Moreover, it has pointed out that tens of thousands of the men who were striking for the purpose of gratifying the vanity of their leaders would find other men in their places when they went to apply to be taken back to work, and that months of enforced idleness and serious suffering would be in store for them. A few days hence when the conspiracy is crushed and the principal conspirators are brought to justice the rank and file of the labor societies will bitterly regret their blindness in not following the advice of the press in this crisis.

ANOTHER FIGHT ON TARIFF.

That the house should make a strong fight through its members of the conference committee against the changes in the tariff bill was, of course, to be expected. In scope and purpose the measure has been radically altered. It is true the bill was neither for revenue nor protection when it left the house, nor is it for either now, but it was more democratic then and more nearly in har-

mony with the spirit of the party's platform of 1892. It was nearer to what the president, as indicated by his letters and messages, understood by tariff reform. The president may be relied on, therefore, to do what he can, by counsel and suggestion, to strengthen the hands of the leaders of the house in the contest which will take place between the hostile tariff policies in the coming conference of representatives of the house and senate.

A year ago Debs announced that he had formed an organization of railway employees among whose cardinal principles were the employment of moral suasion, arbitration, and hostility to strikes or boycotts as weapons of attack or defense. But no sooner does this imposter imagine himself to be firmly in the saddle than he proceeds to do everything that he promised not to do.

A large majority of the members of the house are opposed to the sugar schedule which the senate put in the tariff bill, but this does not necessarily mean that the schedule will be removed or radically modified. In wrangles between the two branches on important questions guesses as to what will happen are very uncertain.

Two weeks from now nobody will be found so poor as to give Debs honor. A general who fails to give his men a fighting chance, and who doesn't know a fighting chance when he sees it, gets very little consideration when his dupes awake.

The Chicago "Times," which started out to back the strikers with vim and earnestness, has been carried down by the force of its surroundings and now devotes its columns to froth about "scabs," "millionaire blood suckers" and "despots."

"If we succeed in this strike we shall be so strong that the law can't touch us," said Howard, one of Debs' lieutenants. A week hence Debs and Howard will be trying to sneak out of the law's clutches.

Janesville laboring men sympathize with the Pullman strikers but they fail to see how a strike in Janesville helps matters one hundred miles away.

CARS OF FRUIT ROT
AND MANY SUFFER.JANESVILLE MERCHANTS TELL
OF THE STRIKE.

Two Hundred Carloads of Bananas Spoiling on the Tracks Between Chicago and New Orleans—Georgia Melons Shut off From the Northern Market.

Each day develops additional inconvenience and loss traceable directly to the obstruction of the railways. Few people who are in sympathy with the obstructionists stop to realize the facts, the results of a general stoppage of commerce. The results are far reaching, and as a rule the heaviest burdens fall upon those who are the least able to bear them. It has been truly remarked that George M. Pullman has resources enough so he can still be feasting on strawberries and cream after these obstructionists are begging for free soup.

The obstruction to commerce has now lasted long enough to enable business men to begin to realize some of the consequences. Supplies are being cut short and consumers must pay accordingly. Then there are hundreds of small farms scattered all through the country, tilled by hard working, honest men, who sell their vegetables and fruit to the city consumers. These men have lost their season's work by the embargo on commerce. Vegetables, fruits, etc., are very scarce in all the cities and towns that depend on these small farmers for their supplies. The product is perishable, and has been lost to the producer for want of means to place it on the market at the right time.

Early Melons Are Spoiling.

The southern planters are heavy losers, in not being able to distribute the early melon crop in the rich markets of the north. Hundreds of carloads of melons have spoiled on the tracks of the tied up railroads and the producer has lost everything. It is said that there are over two hundred carloads of bananas on the railway tracks between Chicago and New Orleans that have become worthless on account of delay in transportation. The fruit, being exposed to the excessive heat, ripened to quickly and then decayed. This will be a heavy loss to some one, perhaps not to the producer, as this class of fruit is generally sold to dealers or speculators on the plantations in Central America. Here in Janesville, where a carload of bananas is consumed every week, the supply of choice bananas is being exhausted, and in the course of a day or two the price will be advanced greatly.

Some few varieties of southern grown vegetables are found in the market, but they have come by express and prices remain almost as high as when the season opened in the early spring. Usually at this season of the year local dealers are well supplied with vegetables, prices being very reasonable. Melons were plenty and very cheap before the strike, being freighted by the carload from interior Georgia. None are in the market now.

Local Trade Suffers.

Local merchants are feeling the effects of the strike, as business generally has been more or less paralyzed. Factories and workshops have been compelled to shut down and lay off their hands, thus causing an irreparable loss to the wage earners. Merchants of all grades will soon feel the effects of this stoppage of the workshops when they present bills for provisions and for merchandise.

People all around are becoming restless and uneasy, fearing the general result of the movement. None want to see anarchy triumph, and all approve the movements of the president to put it down in Chicago. They demand telling and decisive blows, not only in Chicago but all along the line whenever the mob attempts to interfere with the country's commerce.

PAVING BLOCKS CAN'T BE HAD.

Contractor Martin Forced to Stop By the Railroad Tie-Up.

The paving of South River and Main streets is being delayed by the strike. Contractor Martin, who procures his paving blocks from the mills up on the Michigan peninsula, is unable to get the blocks shipped here. River street has been prepared for receiving the sand, and pavers can be put to work laying the blocks as soon as they arrive. It is not likely that Main street will be disturbed until it is certain that material to complete the paving can be had at a moment's notice.

NEW HOSPITAL CUTS
OAK LAWN'S FUNDS.MONEY MUST BE RAISED
VERY SOON.Floating Debt Has Accumulated Until
the Directors Feel That a Decision
Should Be Reached—Stock Holders
to Meet in the Business Men's
Rooms Tomorrow Night.

The stockholders of the Oak Lawn hospital have been called together tomorrow evening. Owing to many adverse circumstances the financial condition of the institution is not favorable. The property occupied and owned by the corporation is entirely free from encumbrance, but the floating indebtedness has been increasing of late. This indebtedness must be paid either by outside contributions or by mortgaging or selling the property. The revenues of the organization have been materially diminished by having the patronage of many of its pay patients cut off, which result has come from the establishment of another hospital in the city, which has the support of some of our best physicians. Hence there remain only those unfortunate persons who are dependent on charity to be cared for and protected by the hospital.

The income from the pay patients has been an important source of revenue during the past few years and it has gradually increased. Whether the enterprise can be sustained without the help which in the past has come from this direction is one of the important questions to be considered. It is greatly to be desired that all members of the Hospital Association, all physicians and other friends who are kindly and charitably disposed, will be present at the meeting on Wednesday evening. The call for the meeting reads as follows:

"A special meeting of the stockholders of the city hospital will be held at the Business Men's rooms Wednesday evening, July 11, at 8 p. m., for the purpose of devising some means of sustaining the hospital in its charity work. This step is considered necessary in consequence of the starting of another hospital under the patronage of some of the physicians of the city. You are earnestly requested to be present and to invite your friends who are interested in the work of the association."

ZEIGLER'S "SEVEN DOLLAR" SALE.

Fourth Annual Clear-Out Sale of Men's Summer Suits Begins Tomorrow.

Commencing tomorrow we will hold our fourth annual \$7 suit sale. For the past three years we have had a July clearing sale of all our summer suits and have each time put together all broken sizes in men's suits consisting of lots of one, two or perhaps three of a kind and made a uniform price of \$7 for choice of any suit. What has been the result each time? Hundreds of men in Janesville and vicinity have come to our store and taken away suits which have formerly sold at \$12, \$15, \$18, \$20 and \$25. Our object is to clear out all lots of broken suits, and do it quickly. Not a suit in the lot worth less than advertised. Your money cheerfully refunded if you are not perfectly satisfied.

SERMON ON JOSEPH BY DR. TALMAGE.

"THE RUSTIC IN THE PALACE"
OF THE KING.

"Joseph Is Yet Alive: I Will Go and See Him Before I Die," Gen. 45:28—The Strength and Reward of Parental Attachments.

BROOKLYN, July 8.—Rev. Dr. Talmage, who is now nearing the Antipodes, on his round-the-world journey, has selected as the subject for his sermon through the press today, "The Rustic in the Palace," the text being taken from Gen. 45:28, "I will go and see him before I die."

Jacob had long since passed the hundred year mile-stone. In those times people were distinguished for longevity. In the centuries afterward persons lived to great age. Galen, the most celebrated physician of his time, took so little of his own medicine that he lived to 140 years. A man of undoubted veracity on the witness stand in England swore that he remembered an event 150 years before. Lord Bacon speaks of a countess who had cut three sets of teeth, and died at 140 years. Joseph Crele of Pennsylvania lived 140 years. In 1857 a book was printed containing the names of thirty-seven persons who lived 140 years, and the names of eleven persons who lived 150 years.

Among the grand old people of whom we have record was Jacob, the shepherd of the text. But he had a bad lot of boys. They were jealous and ambitious and every way unprincipled. Joseph, however, seemed to be an exception; but he had been gone many years, and the probability was that he was dead. As sometimes now in a house you will find kept at the table a vacant chair, a plate, a knife, a fork, for some deceased member of the family, so Jacob kept in his heart a plate for his beloved Joseph. There sits the old man, the flock of 140 years in their flight having alighted long enough to leave the marks of their claw on forehead and cheek and temple. His long beard snows down over his chest. His eyes are somewhat dim, and he can see further when they are closed than when they are open, for he can see clear back in the time when beautiful Rachel, his wife, was living, and his children shook the Oriental abode with their merriment.

The centenarian is sitting dreaming over the past when he hears a wagon rumbling to the front door. He gets up and goes to the door to see who has arrived, and his long absent sons from Egypt come in and announce to him that Joseph instead of being dead is living in an Egyptian palace, with all the investiture of prime minister, next to the king in the mightiest empire of all the world. The news was too sudden and too glad for the old man, and his cheeks whiten, and he has a dazed look, and his staff falls out of his hand, and he would have dropped had not his sons caught him and led him to a lounge and put cold water on his face, and fanned him a little.

In that half delirium the old man mumbles something about his son Joseph. He says: "You don't mean Joseph, do you? my dear son who has been dead so long. You don't mean Joseph, do you?" But after they had fully resuscitated him, and the news was confirmed, the tears begin their winding way down the crossroads of the wrinkles, and the sunken lips of the old man quiver, and he brings his bent fingers together as he says: "Joseph is yet alive. I will go and see him before I die."

It did not take the old man a great while to get ready, I warrant you. He put on the best clothes that the shepherd's wardrobe could afford. He got into the wagon, and though the aged are cautious and like to ride slow, the wagon did not get along fast enough for this old man; and when the old men met Joseph's chariot coming down to meet him, and Joseph got out of the chariot and got into the wagon and threw his arms around his father's neck, it was an antithesis of royalty and rusticity, of simplicity and pomp, of filial affection and paternal love, which leaves us so much in doubt about whether we had better laugh or cry, that we do both. So Jacob kept the resolution of the text—"I will go and see him before I die."

What a strong and unfeeling thing is parental attachment! Was it not almost time for Jacob to forget Joseph? The hot suns of many summers had blazed on the heath; the river Nile had overflowed and receded, overflowed and receded again and again; the seed had been sown and the harvest reaped; stars rose and set; years of plenty and years of famine had passed on; but the love of Jacob for Joseph in his text is overwhelmingly dramatic. Oh, that is a cord that is not snapped, though pulled on by many decades! Though when the little child expired the parents may not have been more than 25 years of age, and now they are 75, yet the vision of the cradle, and the childish face, and the first utterance of the infantile lips are fresh to-day, in spite of the passage of a half century. Joseph was as fresh in Jacob's memory as ever, though at 17 years of age the boy had disappeared from the old homestead. I found in our family record the story of an infant that had died fifty years before, and I said to my parents: "What is this record, and what does it mean?"

Their chief answer was a long, deep sigh. It was yet to them a very tender sorrow. What does that mean? Why, it means our children departed are ours yet, and that cord of attachment reaching across the years will hold us until it brings us together in the palace, as Jacob and Joseph were brought together. That is one thing that makes old people die happy.

They realize it is reunion with those from whom they have long been separated.

I am often asked as pastor—and every pastor is asked the question—"Will my children be children in heaven and forever children?" Well, there was no doubt a great change in Joseph from the time Jacob lost him and the time when Jacob found him—between the boy 17 years of age and the man in mid-life, his forehead developed with the great business of state; but Jacob was glad to get back Joseph anyhow, and it did not make much difference to the old man whether the boy looked older or looked younger. And it will be enough joy for that parent if he can get back that son, that daughter, at the gate of heaven, whether the departed loved one shall come a cherub or in full-grown angel-hood. There must be a change wrought by that celestial climate and by those supernal years, but it will only be from loveliness to more loveliness, and from health to more radiant health. O parent, as you think of the darling panting and white from membranous croup, I want you to know it will be gloriously bettered in that land where there has never been a death and where all the inhabitants will live on in the great future as long as God! Joseph was Joseph notwithstanding the palace, and your child will be your child notwithstanding all the raiment splendors of everlasting noon. What a thrilling visit was that of the old shepherd to the prime minister Joseph! I see the old countryman seated in the palace looking around at the mirrors and the fountains and the carved pillars, and oh! how he wishes that Rachel, his wife, was alive and she could have come there with him to see their son in his great house. "Oh," says the old man within himself, "I do wish Rachel could be here to see all this!" I visited at the farm house of the father of Millard Fillmore when the son was President of the United States, and the octogenarian farmer entertained me until 11 o'clock at night telling me what great things he saw in his son's house at Washington, and what Daniel Webster said to him, and how grandly Millard treated his father in the white house. The old man's face was illumined with the story until almost midnight. He had just been visiting his son at the capitol. And I suppose it was something of the same joy that thrilled the heart of the old shepherd as he stood in the palace of the prime minister. It is a great day with you when your old parents come to visit you. Your little children stand around with great wide-open eyes, wondering how anybody could be so old. The parents can not stay many days, for they are a little restless, and especially at nightfall, because they sleep better in their own bed; but while they tarry you somehow feel there is a benediction in every room in the house. They are a little feeble, and you make it as easy as you can for them, and you realize they will probably not visit you very often—perhaps never again. You go to their room after they have retired at night to see if the lights are properly put out, for the old people understand candle and lamp better than the modern apparatus for illumination. In the morning, with real interest in their health, you ask them how they rested last night. Joseph, in the historical scene of the text, did not think any more of his father than you do of your parents. The probability is, before they leave your house they half spoil your children with kindness. Grandfather and grandmother are more lenient and indulgent to your children than they ever were with you. And what wonders of regulation in the bombazine pocket of the one and the sleeve of the other! Blessed is that home where Christian parents come to visit! Whatever may have been the style of the architecture when they came, it is a palace before they leave. If they visit you fifty times, the two most memorable visits will be the first and the last. Those two pictures will hang in the hall of your memory while memory lasts, and you will remember just how they looked and where they sat, and what they said, and at what figure of the carpet, and at what door sill they parted with you, giving you the final good-by. Do not be embarrassed if your father come to town and he have the manners of the shepherd, and if your mother come to town and there be in her not a sign of costly millinery. The wife of the Emperor Theodosius said a wise thing when she said: "Husband, remember what you lately were, and remember what you are and be thankful."

By this time you all notice what kindly provision Joseph made for his father Jacob. Joseph did not say: "I can't have the old man around this place. How clumsy he would look climbing up these marble stairs, and walking over these mosaics! Then he would be putting his hands upon some of these frescoes. People would wonder where that old greenhorn came from. He would shock all the Egyptian court with his manners at table. Besides that he might get sick on my hands, and he might be querulous, and he might talk to me as though I were only a boy, when I am second man in all the realm. Of course, he must not suffer, and if there is famine in his country—and I hear there is—I will send him some provisions; but I can't take a man from Pandanaram and introduce him into this polite Egyptian court. What a nuisance it is to have poor relations!"

Joseph did not say that, but he rushed out to meet his father with perfect abandon of affection, and brought him up to the palace and introduced him to the emperor, and provided for all the rest of the father's days, and nothing was too good for the old man while living; and when he was dead, Joseph, with military escort, took his father's remains to the family cemetery. Would God all children were as kind to their parents.

If the father have large property, and he be wise enough to keep it in his own name, he will be respected by the heirs; but how often it is when the son finds his father in famine, as Joseph found Jacob in famine, the young people make it very hard for the old man. They are so surprised he eats with a knife instead of a fork. They are chagrined at his antediluvian habits. They are provoked because he can not hear as well as he used to, and when he asks it over again, and the son has to repeat it, he bawls in the old man's ear: "I hope you hear that!" How long he must wear the old coat or the old hat before they get him a new one! How chagrined they are at his independence of the English grammar! How long he hangs on! Seventy years and not gone yet! Seventy-five years and not gone yet! Eighty years and not gone yet! Will he ever go? They think it of no use to have a doctor in his last sickness, and go up to the drug store and get a dose of something that makes him worse, and economize on a coffin, and beat the undertaker down to the last point, giving a note for the reduced amount, which they never pay. I have officiated at obsequies of aged people where the family have been so inordinately resigned to Providence that I felt like taking my text from Proverbs: "The eye that mocketh at its father, and refuseth to obey its mother, the ravens of the valley shall pick it out, and the young eagles shall eat it." In other words, such an ingrate ought to have a flock of crows for pall-bearers! I congratulate you if you have the honor of providing for aged parents. The blessing of the Lord God of Joseph and Jacob will be on you.

I may say in regard to the most of you that your parents have probably visited you for the last time, or will soon pay you such a visit, and I have wondered if they will ever visit you in the king's palace. "Oh," you say, "I am in the pit of sin!" Joseph was in the pit of sin. "Oh," you say, "I am in the prison of mine iniquity!" Joseph was once in prison. "Oh," you say, "I didn't have a fair chance; I was denied maternal kindness!" Joseph was denied maternal attendance. "Oh," you say, "I am far away from the land of my nativity!" Joseph was far from home. "Oh," you say, "I have been betrayed and exasperated!" Did not Joseph's brethren sell him to a passing Ishmaelitic caravan? Yet God brought him to that embazoned residence; and if you will trust his grace in Jesus Christ, you, too, will be emplaced. Oh, what a day that will be when the old folks come from an adjoining mansion in heaven, and find you amid the alabaster pillars of the throne-room and living with the King! They are coming up the steps now, and the epauletted guard of the palace rushes in and says: "Your father's coming, your mother's coming!" And when under the arches of precious stones and on the pavement of porphyry you greet each other, the scene will eclipse the meeting on the Goshen highway, when Joseph and Jacob fell on each other's neck and wept a good while.

But oh, how changed the old folks will be! Their cheek smoothed into the flesh of a little child. Their stooped posture lifted into immortal symmetry. Their foot now so feeble, then with the sprightliness of a bounding roe, as they shall say to you: "A spirit passed this way from earth and told us that you were wayward and dissipated after we left the world; but you have repented, our prayer has been answered, and you are here; and as we used to visit you on earth before we died, now we visit you in your new home after our ascension." And father will say, "Mother, don't you see Joseph is still alive?" and mother will say, "Yes, father, Joseph is yet alive." And then they will talk over their earthly anxieties in regard to you, and the midnight supplications in your behalf, and they will recite to each other the scripture passage with which they used to cheer their staggering faith: "I will be a God to thee and thy seed after thee." Oh, the palace, the palace, the palace! That is what Richard Baxter called "The Saints' Everlasting Rest." That is what John Bunyan called the "Celestial City." That is Young's "Night Thoughts" turned into morning exultations. That is Gray's "Elegy in a Churchyard" turned to resurrection spectacle. That is the "Cotter's Saturday Night" exchanged for the "Cotter's Sabbath morning." That is the shepherd of Salisbury Plains amid the flocks on the hills of heaven. That is the famine-struck Padanaram turned into the rich pasture fields of Goshen. That is Jacob visiting Joseph at the emerald castle.

SOME NOTABILITIES.

General Booth, commander-in-chief of the Salvation army, says that he never reads the newspapers.

The Suez canal company has voted an annual pension of 5,000 francs each to De Lesseps, thirteen children.

Ellen Terry's first husband was George Frederic Watts, the eminent and veteran royal Academician, still living, and past seventy.

General Greely believes, from the character of the icebergs which he has observed, that there exists at or near the North pole a large extent of ice covered land.

Lord Rosebery had Mr. Gladstone's reference to him as "the man of the future" quoted at him by a Manchester orator, lately, when he returned thanks for the complimentary speech he observed, and doubtless with feeling, "I am beginning to think it is a great deal easier to be the man of the future than the man of the present."

Not at All Sanguine.
William Ford, an old soldier, suggested to a reporter how to get rid of English sparrows. Ford says his knowledge and experience with sparrows was obtained while an inmate of the soldiers' home at Hampton, Va., last year. Unknown to the officers, liquor being prohibited, a small quantity of whisky was smuggled into the home, and a lot of rice being obtained, the latter was soaked in the whisky, then thrown broadcast about the grounds. The sparrows tackled the rice in force and in a few minutes hundreds of them were hors du combat. Ford says it was a "circus" for the boys—the old soldiers—watching the antics of the birds after they had become affected by the whisky, and the cats of the home had a picnic, and more sparrows than enough. The cats were simply gorged with sparrows. Very many of the sparrows were killed by the rice whisky alone.

Older, But Not Wiser.

"The world," said the theorist, is very much like an individual. It has its ups and downs; its periods of exaltation and depression."

"Well," replied the man who thinks everything goes wrong, "I might not agree with you on the general ground ye take. But I'll admit that it's like some people I know."

"How do you mean?"

"The older it gets, the less sense it shows."

SURROUNDED BY MYSTERY!

A Great Mistake.

A recent discovery is that headache, dizziness, dullness, confusion of the mind, etc., are due to derangement of the nerve centers which supply the brain with nerve force; that indigestion, dyspepsia, neuralgia, wind in stomach, etc., arise from the derangement of the nerve centers supplying these organs with nerve fluid or force. This is likewise true of many diseases of the heart and lungs; the nerve system is like a telegraph system, as will be seen by the accompanying cut. The little white lines are the nerves which convey the nerve force from the nerve centers to every part of the body, just as the electric currents conveyed along the telegraph wires to every station, large or small. Ordinary physicians fail to regard this fact; instead of treating the nerve centers on a positive guarantee, they treat the symptoms for the cause of the disorders arising therefrom. They treat the part affected.

Franklin Miles, M. D., LL. B., the highly celebrated specialist and student of nervous diseases, and author of many noted treatises on the latter subject, long since realized the truth of the first statement, and his Restorative Nerve Tonic was prepared on that principle. Its success in curing all diseases arising from derangement of the nervous system is wonderful, as the thousands of unsolicited testimonials in possession of the company manufacturing the remedy amply prove.

Dr. Miles' Restorative Nerve Tonic is a reliable remedy for all nervous diseases, such as headache, nervous debility, prostration, sleeplessness, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid.

Restorative Nerve Tonic positively contains no opiates or dangerous drugs.
